

AP Latin Summer Assignment 2018-19

Dear Students,

The AP Latin exam places a significant emphasis on demonstrating competency in translating both prepared and sight passages. Knowing the vocabulary of passage is a significant step towards translating the passage. In preparation for reading Vergil's *Aeneid* first semester, I would like you to master the 243 core vocabulary words that you will see in the *Aeneid*. Many of these words will already be familiar to you. I expect you to memorize the full dictionary entry and definition of the word. I am attaching PDF file of the word list, but please join the Quizlet AP Latin class:
